Submission
Rules

Coding Rules

Report

Conclusions

A student shall not yield to cheating or plagiarism, which not only violate academic standards but also make the offender liable to penalties explicit in Title 5 of the California Code of Regulations, part 5, sec. 41301(a), as follows:

Sec 41301. Expulsion, Suspension and Probation of Students. Following procedures consonant with due process established pursuant to Section 41304, any student of a campus may be expelled, suspended, placed on probation. A student who has committed offense may be subject to University disciplinary action.

CODING RULES - 1

MEDIA COMMUNI- CATION SYSTEMS

Seethal Paluri

Outline

Plagiarism

Submission
Rules

Coding Rules

Report

Conclusions

Each Assignment will have a few questions. It is understood that you should successfully complete Q1 before you can attempt Q2. So there is no need to submit a .m file for each question. If you are not using functions, all questions should be encoded in one file.

CODING RULES- 2

MEDIA
COMMUNI-
CATION
SYSTEMS

Seethal Paluri

Outline

Plagiarism

Submission
Rules

Coding Rules

Report

Conclusions

- 1 All functions must be called through your main .m file.
Example: If each Q is function then call all the functions in main()

CODING RULES- 2

- 1 All functions must be called through your main .m file.
Example: If each Q is function then call all the functions in main()
- 2 Readme should contain clear instructions on how to execute your code and what outputs to expect

CODING RULES- 2

Coding Rules

Report

Conclusions

- ➊ All functions must be called through your main .m file.
Example: If each Q is function then call all the functions in main()
- ➋ Readme should contain clear instructions on how to execute your code and what outputs to expect
- ➌ If your main file is Readme.m, then indicate on top of the Readme file that I should execute this file.

CODING RULES- 2

- ❶ All functions must be called through your main .m file.
Example: If each Q is function then call all the functions in main()
- ❷ Readme should contain clear instructions on how to execute your code and what outputs to expect
- ❸ If your main file is Readme.m, then indicate on top of the Readme file that I should execute this file.
- ❹ Only read your input once so that I can easily change directory on my system.

CODING RULES - 3

Code should be well indented, commented and all the variables should be labelled appropriately.

NOTE

Include *clearall* and *clc*.

RE-GRADING POLICY

MEDIA COMMUNI- CATION SYSTEMS

Seethal Paluri

Outline

Plagiarism

Submission
Rules

Coding Rules

Report

Conclusions

Partial Credit is awarded for all questions, so ensure that you attempt each and every question. If you could not complete a section but you show me that you are thinking along the right direction, I will award atleast 50% of the marks allotted to that question.

Any unwarranted queries for reevaluation will not be entertained unless there a genuine discrepancy over the marks awarded. I send detailed feedback to each and every student about where their marks were deducted.
